## A GREAT SPEECH

Made by a Great Man to the People of South Carolina.

COLUMBIA IN HER GLORY.

The Money Question, Trusts, the Income Tax and Imperialism Discussed in a Plain but

Masterly Manner.

Bryan's visit to Columbia Thursday will be a memorable day in the history of South Carolina. The following account of his visit is taken from The

William Jennings Bryan came; the people saw and heard, and were conquered! Men who had not heretofore been admirers of the great Democratic of the man. His brain power, his evident sincerity, his judgment, his personal magnetism made admiration for the great American mandatory. Mr. Bryan covered ground in a speech of two hours that could not be blage. Mr. Scarborough said: covered by an average speaker in Without any "taffysix hours. ing," not a single reference being made to South Carolina's glorious history, the enthusiasm touch-button of every visiting speaker, Mr. Bryan commanded the breathless attention of his great audience of thousands of representative people from start to finish. His address was pronounced by all who heard it a masterpiece, and many wendered at the manner of man. Mr. Bryan | be truly great that do not pay court to made no effort at dramatic oratory. He | greatness. spoke plainly and evenly and only three or four times did he really display anything approaching the dramatic, yet there was that magnetism which caught and held the hearer's attention, and it was only when Mr. Bryan would say something bristling with wit or let fall some sparkling epigramic expression that the spell would be broken by bursts of applause. He would not press home references to matters that would rouse the enthusiasm of his admirers. For instance, his reference to reconstruction in the south was a mere suggestion, made quickly, as the speaker

Mr. Bryan did not dress himself in new clothes and put on airs. He wor an ordinary black frock coat suit and a slouch hat. He did not indulge too freely in gestures, but his whole demeanor was simplicity itself. And this was true of Mr. Bryan's every action while in Columbia. The effect of his address was shown when he concluded. People jumped for the stand and knocked over chairs in their efforts to shake his hand. It was a remarkable demonstration. But Mr. Bryan's time was limited to minutes and he was hurried through the capital, back to his carriage via the governor's office. A stream of people poured after him. One or two ladies managed to shake hands with him and a few score men before he could reach the carriage. To the carriage the crowd followed him and it was with difficulty that he could escape. Columbia's representatives and the State anthorities showed Mr. Bryan every attention and true southern hos pitality was extended to him. He enjoyed his ride through the city, the attentions shown him, and the reception accorded him, though his stay was so

brief that Columbia did not have a fair chance to show him those social courtesies contemplated. Indeed Bryan day in Columbia was memorable one; the members of the legislature are congratulating themselves that they had the opportunity to hear Mr. Bryan. Preparations for the address were hurried forward from early morning. The day was an ideal one, perfect in fact, balmy and clear. The stand was completed in the morning and Messrs. J. A. Willis, A. E. Gonzales and P. G. Marshall saw that it was well decorated. At each corner historic flags of the State stood, one was pendant from the front of the stand, and United States flags formed the ground work of all decorations. The sble Mr. Bryan stood beside was covered with a handsome United States

flag. Chairs were brought from every direction and arranged in front of the stand. These were later occupied by members of the general assembly and ladies. Around them stood the vast crowd of people, men, women and children, all getting as close to the stand as possible. Trees and telegraph poles in the distance had many occupants; carriages and buggies standing in Senate street were filled, and from the rock ledge on the capitol building many lisened and looked down upon the speaker. There were but few black faces among those gazing at the speaker. Women's headgear was sprinkled throughout the crowd and gave all the color of the rainbow to it. The crowd was orderly, only a few remarks being heard. One that caused a laugh was made when Mr. Bryan asked to be allo red to put on his hat to protect the bald spot on his head. It was: "Boys, he wears a wool Another gave him a new title, "The Real American Bald Eagle."

Mr. Bryan wore a white campation in his buttonhole. During the forenoon the Coast Line's special brought in five carloads of visitors. Others came by

the regular trains. Long before the appointed hour the crowd began to gather. People came from every direction and as the time went on the streams became continuous. In the governor's office members of the legislative and city committee, the governor's wife, Gen. Wade Hampton and many others awaited the coming of Col. Bryan. At 1 o'cleck the carriages bearing Mr. Bryan and escort pulled up to the west end of the capitol and soon the party was formed and preceded to the stand, Mr. Bryan carrying his bouquet. The

The arrival of the party was announced by Sergeant at arms Gaston, and Lieut. Gov. Scarborough called the assembly to order. The band played and a storm of cheers greated the appearance of the distinguished visitor. Capt. Pat Meehan of the Columbia committee held and umbrella over Mr. Bryan to protect him from the heat of the sun.

Among those occupying seats on the stand were Gov. McSweeney, Gen. Wade Hampton, Senators Livingston, Henderson, Dean and Williams, Representatives N. G. Evans, Brantley, Richards, Bacot and Maulding, Col. Wilie Jones, Chairman W. D. Evans of the railroad commission, Comptroller General Derham, Attorney General Bellinger, Editor N. G. Gonzales, of the State, Messrs. Gonzales, Wilchieftain became most ardent admirers lis and Meehau of the city committee, Mr. A. H Patterson, Mayor Lipscomb, Dr. W. E. Evans and many others.

After the music had ceased Lieut. Gov.

Scarborough rapped for order with his gavel and then addressed the assem-Gentlemen of the Joint Assembly: As representatives of the sovereign State of South Carolina we have turned aside from routine business to do honor to our State in receiving, entertaining and honoring the most prominent character in American politics. It is eminently proper that men, who stand out prominently in their day and generation should receive the homage of their admiring countrymen. No people can

A century and a quarter have passed since the American ship of State started on its voyage on an unknown seasince the American people undertook to shape an ideal form of government in a land worthy to be called "The land of the free and the home of the brave." At no time in our country's history have the American people, as a people, given more thought to the prin-ciples of government and stateoraft; at no time in the past has the American citizen so fully understood and appre-

ciated his duties and responsibilities as he does today. Union, because he is an advocate of the rights of the individual American citi-

A great Englishman, I believe it was, who asked and answered the momentous question, "What constitutes a State?" said:

"What constitutes a State? Not high raised battlements, nor labored Thick wall nor mosted gate;

Not bays a r broad-armed ports, Where, laughing at the storm, rich navies

Not stars and spangled courts, Where low-browed baseness wasts perfume

But men, high minded men, With powers as far above dull brutes enn forest, brake or den.

As beasts excel cold rocks and brambles Men, who their duties know, but know their

rights, And knowing dare maintain, Recent the long-aimed blow and crush the

tyrant Ere they rend the chain. These, these constitute a State."

Such an ideal citizen is our guest today. Far off Nebraska calls him her son, but all the States of this Union claim the right to honor the peerless statesman who will now be introduced to you by the honorable speaker of the house of representatives. As the lieutenant governor took his

the front of the stand. Speaker Gary said: Mr. President, Ladies and Gentlemen: It is our good fortune to have

with us today the great tribune of a great party. In the language of the lamented Dr. Grier, this is Bryan day in South Carolina. As the representativos of the people of the State, we welgod-speed in the grand fight which he is making for the rights of the people against organized capital, and assure him that he is in the house of his friends. I present to you Hon. Wm. J. Bryan, of Nebraska, our next presi-

dent. (Cheers.) Mr. Bryan promptly arose and stepped to the very front of the stand. The cheering was deafening. Mr. Bryan bowed his acknowledgements several times, and waited for quite before he began his speech. The speech was reported in full in The State. It made over nine columns in that enterprising journal. We would like to publish it in full, but its length prevents us from doing so. Wa shall not mar it by attempting a synopsis of it. It delt with the money question, trusts, the income tax and particularly imperialism, which he discussed in a plain, but most masterly manner. He drew a strong contrast of the policy of Republican party to the black man at home and the brown man abroad. The delivery of the great speech took

exactly two hours. At the conclusion of his great speech Mr. Bryan said: It was intended that I should remain in this city and have the pleasure of meeting a number of your people this evening, but this morning is was decided that instead of staying here to gratify both myself and you, I should leave immediately for Charleston, and the engrossing department brought in a there speak tonight, and those of you nagnificent bouquet of white and pink who know Charleston, know how much more they need me there than you need

Bryan Greeted at Many Places by Enthusiastic Crowds

Mr. Bryan was to have had a reception in Columbia Thursday night, but on account of his visit to Charleston that had to be abandoned. After dining at the residence of Col. Wilie Jones in company with Gov. McSweeney and other distinguished gentlemen he left for Charleston at four o'clock. In the Pullman car with Mr. Bryan were Major J. C. Hemphill, editor of the News and Courier, Mr. T. Allen Legare, W. W. Simmons, W. B. Wilson, J. D. Chappelmann and W. H. Parker, of the Charleston committee, Mr. Bacot, Senator Appelt, Commissioner Garris, Mr. James H. LaCoste, Miss Kate F. Maher, Col. Wilie Jones, Hon. T. F. Brantley and Mr. August Kohn, of The News and Courier. On the way down to Charleston the experience was the same as above Columbia, and Mr. Bryan had to make two speeches-one at Orangeburg, where there must have been fully a thousand people, and one at Branchville. At Weston's and Kingville there were small groups and Mr. Bryan opened the window to speak to his admirers. At Fort Motte there was quite a

growd and some elderly gentleman handed a package to Mr. Bryan. When he opened it he found it contained sixteen large gungers and one wee bit of a snap and each of the gungers was marked 16 to 1. The little yellow snap was offered one of the party, but declined, and Mr. Bryan distributed the gungers and before long each gunger had Mr. Bryan's autograph and he souvenir collectors were happy. At St. Matthew's there must have been a couple of hundred people or more. The girls brought boquets and smiles and Mr. Bryan stood on the rear platform and shook hands with all he could

n the limited stay. It was at Orangeburg that there was the popular demonstration. A full thousand were on hand to welcome Bryan. Mayor Dukes was the first to shake Mr. Bryan's hand. He was asked to speak, but declined. The crowd insisted. The train was pulled down, so the rear end of the car faced the large audience and almost perforce Mr. Bryan had to speak about five minutes, and as the train was pulling out he rounded off a final sentence. The distinguished gentleman who Mr. Bryan said he was not going to honors us on this occasion by coming to make any speech. To attempt a disof the true cussion of any topic would result in a principles upon which this government failure, because of the time, and he is founded, and his name has become a may prove a disappointment. Then he household word in every section of this spoke of how he realized that there was no need for missionary work in South Carolina, and that his not coming here was a compliment to the Democracy of the people of this State. But, said he, there are other as good Democrats. There are Democrats who vote the ticket without hope of reward or fear of punishment, and in many States good Democrats vote the ticket without hope of office, which the Southera Democrats get. Mr. Bryan in a word or two told 'he audience that the

money question was not a dead issue. but was very life-like, and before he could say more the train rolled off, and as it did there were cheers for Bryan and Thomas F. Brantley, who had introduced Mr. Bryan and induced him to speak at all in Orangeburg.

At Branchville there was the wait for supper and Mr. Bryan was cordially welcomed. He had to speak there for

At St. Matthew's, Orangeburg and Branchville baskets of flowers were handed him and to those whose cards were attached he wrote notes to be delivered by Mr. Brantley.

The remainder of the trip to Charleston was uneventful, except for the effort to get Mr. Bryan to speak at Sum-

seat Speaker Gary arose and stepped to Greeted by the Largest Audience Ever Seen in that City.

In speaking of Mr. Bryan's visit to Charleston The News and Courier of Friday said:

"Whether it was a tribute to the man or the cause which he represents is not come him to our midst. We bid him a matter for reportorial discussion, but the fact remains that there was an sudience assembled at the Thomson Memorial Auditorium last night to greet Col. William Jennings Bryan the like of which has never faced a single orator in Charleston before. It was all the more remarkable when you remember that it was not announced that Col. Bryan would visit this city until after

1 o'clock in the afternoon. "The Auditorium was ready for the audience by 7 o'clock and the crowd was not slow in coming. The ushers quickly found their time fully occupied in seating the streams of people who poured in at every entrance. They came from all quarters of the city. The cars coming from up-town were packed with them as early as 7.30, an hour and half before Col. Bryan could possibly arrive at the Auditorium. Those going down had people hanging on to their railings, and all the while the sidewalks for blocks away were packed with never-ending processions, which marched steadily towards the

"The splendid capacity and facilities of the Auditorium were never better exemplified. The great building received and swallowed up the multitudes in a twinkling. Other hundreds followed them. They, too, disappeared, and still there was scarcely a scattering of people on the floor and in the galleries. But as time went on and there was not the slightest diminution in the influx the building became animated, and then almost before you knew it you realized that a vast audience was present. From the main floor an unbroken sea

PLAIN TALK SOME

Senator Chandler Turns Against His Republican Colleagues.

HE WARNS HIS PARTY.

Says He Can't Swallow Monometalism. Which is the Purpose of the Present Financial Bill.

Senator Chandler of New Hampshire, in addressing the United States Senate against the financial bill recently indulged in some plain talk to his Republican colleagues. Mr. Chandler said in

"Those who have absorbed the gold of the world are trying to make it more valuable by legislation. That is the natural meaning of the first 10 lines of the senate bill. There is no need of the law for any other object, Absolutely no other purpose is to be subserved to those lines. The passage of the bill without adequate recognition simmons of Colleton was nominated by of the desire and determination of the. American people that silver shall be give to it my vote. "In truth, in spite of temporary present conditions the case in favor of bimetallism still remains unimpaired. The merits of bimetallism are plain. The injury to result from gold mono-

metallism is sure. "Such arguments as can be based upon the foregoing facts bimetallism are confronted with. The answer I made is that there is no certainty that the rise in prices, which are still only about three fourths of their former rate will be increased or even maintained. econd, that it is not certain that the increased production of gold will con-

"The attempt to establish the gold standard in India has been a failure. The public sentiment of England would welcome another movement for the remonetization of silver. If the Fransvaal war continues England may soon become willing to enlarge the metallic money of the world through renewed negotiations for an international agreement. The senator from Rhode Island says that it is not intended to reject the idea of international metallism.

"Why then not place an unequivocal pledge in this bill? The declaration inavor of gold is unwise both in a business and political sense. There is no need of this law. Therefore, let us reiterate the law of 1893 and not entact gold monometalism in violation of the pledges of the Republican party. Let the convention to be held in June next decide that question. "It is with sincere regret that I dif-

fer so radically from my political associates in this body. But my conviction of duty will not allow me to do otherwise. I have not abandoned the faith of the fathers. I stand upon the ancient ways.

"I want the double standard, so do want the single gold standard. We eight billions of dollars in coin. They want it to be only four billions of dollars. The difference means injustice, injury, suffering and distress to millions of God's poor people the world over, while the gold class is to wax fat at the cost of their helpless victims. "The gifted senator from New York (Mr. Depew) is said to have designed for the Republican party a new campaign moute for 1900: 'Gold and glory.' The alteration is pleasing. It will look finely on gilded banners, and will doubtless lead to victory. But if the word means gold monometalism, it will be necessary for the golden tongued orators of the party to expatiate with the flag coming from the war with Spain in order to overcome the many evil effects at the polls in November of the leep damnation of the destruction by legislation of half the earth. Some Plain Figures. Good people out on the farms, do have some foresight. We have figured out to you in plain figures that a nice million bale crop-450 pounds to the bale-will pay you three hundred and twenty-four million dollars (\$321,000,-000) at 8 cents while a twelve million bale crop at 5 cents will pay you two hundred and seventy millions (270,000,-000. You will clear the differencefifty-four million dollars-by keeping the crop at nine millions. The Almighty helped you this season by cutting down the yield. Now help yourselves by keeping it down. If you will reduce the acreage but intensify so as to increase the yield to the acre you will all be in a fair way to get rich, for the stock will be low and another nine million crop will put prices to nine or ten cents.-Greenville News.
